CONTENTS OF VOLUME 34

NUMBER 1—JANUARY 1991

Page

i Editorial.

1 A training programme to improve human physical capability for manual handling jobs. A. M. Genaidy.

13 The y-intercept of the critical power function as a measure of anaerobic work capacity. D. G. Jenkins and B. M. Quigley.

23 Psychophysical lifting capacity over extended periods. J. E. Fernandez, M. M. Ayoub and J. L. Smith.

33 Evaluating lifting tasks using subjective and biomechanical estimates of stress at the lower back. A. Waikar, K. Lee, F. Aghazadeh and C. Parks.

49 Effect of toeclip use during cycle ergometry on ventilatory threshold and $\dot{V}O_2$ max in trained cyclists and runners. G. R. Brodowicz, D. S. King and P. M. Ribisl.

57 The effect of arm support on supraspinatus muscle load during simulated assembly work and welding. U. Järvholm, G. Palmerud, R. Kadefors and P. Herberts.

67 Effects on vigilance performance and sleepiness of alcohol given in the early afternoon ('post lunch') vs. early evening. J. A. Horne and H. Gibbons.

79 Behavioural compliance to voice and print warnings. M. S. Wogalter and S. L. Young.

91 Psychological correlates of walking speed in the visually impaired. W. D. A. Beggs.

103 Biomechanical evaluation of lift postures in adult Koli female labourers. M. Mittal and S. L. Malik.

109 Book reviews.

117 Ergonomics diary.

NUMBER 2—FEBRUARY 1991

123 Mental performance of air crew following layovers on transzonal flights. H. C. Beh and P. J. McLaughlin.

137 Shoulder muscle tension induced by two VDU-based tasks of different complexity. M. Wærsted, R. A. Bjørklund and R. H. Westgaard.

Page

151 Variation in drivers' cognitive load. Effects of driving through village areas and rural junctions. L. Harms.

161 Factors influencing speed and precision of cursor positioning using a mouse. U. Tränkle and D. Deutschmann.

175 Constrained standing: Evaluating the foot/floor interface. L. Zhang, C. G. Drury and S. M. Woolley.

193 Operator workload and system performance under different conditions of force feedback in a telemanipulation task. N. Fiori, J. Richardson and M. Bouin.

211 Capture of moving targets: a modification of Fitts' Law. E. R. Hoffmann.

221 The effects of method of use, tool design, and roof height on trunk muscle activities during underground scaling bar use. W. S. Marras and S. A. Lavender.

233 Calculation of clothing insulation and vapour resistance. W. A. Lotens and G. Havenith.

255 Ergonomics diary.

NUMBER 3—MARCH 1991

i Editorial.

265 Working hours as a risk factor in the development of musculoskeletal complaints. M. Wærsted and R. H. Westgaard.

277 Accelerator-to-brake movement times. E. R. Hoffmann.

289 A biomechanical and ergonomic evaluation of patient transferring tasks: bed to wheelchair and wheelchair to bed. A. Garg, B. Owen, D. Beller and J. Banaag.

313 Psychological effects on prolonged use of respiratory protective devices in children. E. Mauritzson-Sandberg.

321 Effects of respirators on performance of physical, psychomotor and cognitive tasks. N. J. Zimmerman, C. Eberts, G. Salvendy and G. McCabe.

335 Endurance time and physiological responses to prolonged arm lifting. S. S. Asfour, M. Tritar and A. M. Genaidy.

343 The quantification of EMG normalization error. G. A. Mirka.

353 The effect of a moving background on aimed hand movements. H. Mohrmann-Lendla and A. G. Fleischer.

365 Ambient temperatures preferred by young European males and females at rest. F. Grivel and V. Candas.

379 Preferred vertical gaze direction and observation distance. H. Heuer, M. Brüwer, T. Römer, H. Kröger and H. Knapp.

393 Ergonomics diary.

CONTENTS OF VOLUME 34

NUMBER 4—APRIL 1991

Page

v Editorial.

397 A comparison of hand and foot movement times. E. R. Hoffman.

407 A biomechanical and ergonomic evaluation of patient transferring tasks: wheelchair to shower chair and shower chair to wheelchair. A. Garg, B. Owen, D. Beller and J. Banaag.

421 Inertial effects from single body segments in dynamic analysis of lifting. L. Lindbeck and U. P. Arborelius.

435 Psychometric properties of the Diurnal Type Scale of Torsvall and Åkerstedt (1980). K. M. Greenwood.

445 Effects of thermal environment and chemical protective clothing on work tolerance, physiological responses, and subjective ratings. M. K. White, T. K. Hodous and M. Vercruyssen.

459 Face composite construction: In-view and from-memory quality and improvement with practice. M. S. Wogalter and D. Bradley Marwitz.

469 Effects of specificity of probability information on human performance in a signal detection task. M. S. Shurtleff.

487 Psychophysical acceptability and perception of load heaviness by females. W. Karwowski.

497 Three-dimensional face shape analysis of French adults, and its application to the design of protective equipment. A. Coblentz, R. Mollard and G. Ignazi.

519 Ergonomics diary.

NUMBER 5—MAY 1991

525 Self-reported health and well-being amongst night security guards: a comparison with the working population. L. Alfredsson, T Åkerstedt, M. Mattsson and B. Wilborg.

531 Worker selection of safe speed and idle condition in simulated monitoring of two industrial robots. W. Karwowski and M. Rahimi.

547 Occupational musculoskeletal disorders in the neck and upper limbs of forestry workers exposed to hand–arm vibration. M. Bovenzi, A. Zadini, A. Franzinelli and F. Borgogni.

563 Human strength capabilities during one-handed maximum voluntary exertions in the fore and aft plane. D. M. Fothergill, D. W. Grieve and S. T. Pheasant.

575 The effect on sitting posture of a desk with a 10° inclination for reading and writing. M. de Wall, M. P. J. M. van Riel, C. J. Snijders and J. P. van Wingerden.

Page

585 Drivers' awareness of traffic sign information. W. A. Macdonald and E. R. Hoffmann.

613 Efficiency and effectiveness of stoop and squat lifting at different frequencies. E. Welbergen, H. C. G. Kemper, J. J. Knibbe, H. M. Toussaint and L. Clysen.

625 Structural determinants of the psychosocial work environment: introducing technology in the work stress framework. B. C. Amick III and D. D. Celentano.

647 Ergonomics diary.

NUMBER 6—JUNE 1991

Special Issue: 'Designing for Everyone': Plenary Papers from the 11th IEA Congress, July 1991, edited by A. Wisner and Y. Quéinnec

v Preface. A. Wisner and Y. Quéinnec.

653 **Work analysis methods**
Work analysis in French language ergonomics: origins and current research trends. V. de Keyser.

671 **Control of dynamic environments**
Complexity, fuzziness, and ergonomic incompatibility issues in the control of dynamic work environments. W. Karwowski.

687 **Work under extreme conditions**
Work under extreme conditions. H. Luczak.

721 **Advances in HCI**
Ergonomic perspectives on advances in human–computer interaction. K. D. Eason.

743 **ODAM**
Ergonomics in organizational design and management. H. W. Hendrick.

757 **Work and time**
Job content and working time: the scope for joint change. K. Kogi.

775 **Management of the working population**
Management of the working population. P. Rabbitt.

791 **The impact of computers on disabled people**
Ergonomics, situational handicap, and new technologies. S. Bouisset and J. P. Rossi.

799 **Technology transfer**
Ergonomics, technology transfer and developing countries. C.-N. Ong.

815 **Product-oriented ergonomics**
Design and ergonomics. M. Akita.

825 **Manufacturing and industrial effectiveness**
Ergonomics practice in manufacturing. C. G. Drury.

Page

841 **Occupational health and safety**
Incidence of work-related disorders and absenteeism as tools in the implementation of work environment improvements: the Sweden Post strategy. B. Knave, H. Paulsson, B. Floderus, L. Grönkvist, T. Häggström, G. Jungeteg, H. Nilsson, M. Voss and A. Wennberg.

849 **News from the IEA**
Ergonomics International News and Information—1991. S. Konz.

NUMBER 7—JULY 1991

867 Why is the driver rarely motion sick? The role of controllability in motion sickness. A. Rolnick and R. E. Lubow.

881 Hand strength: the influence of grip span and grip type. C. Fransson and J. Winkel.

893 The insulation provided by infants' bedclothes. D. McK. Kerslake.

909 Postural load and back pain of workers in the manufacturing of prefabricated concrete elements. A. Burdorf, G. Govaert and L. Elders.

919 Components of driving skill: experience does not mean expertise. J. Duncan, P. Williams and I. Brown.

939 Acceptable weights and physiological costs of performing combined manual handling tasks in restricted postures. S. Gallagher.

953 An electromyographic study of dental work. E. Milerad, M. O. Ericson, R. Nisell and A. Kilbom.

963 Ergonomics International News and Information—1991. S. Konz.

973 Ergonomics diary.

981 Our contemporaries—Zeitschrift für Arbeitswissenschaft.

985 Our contemporaries—Ergonomia.

989 Obituary.

NUMBER 8—AUGUST 1991

Special Issue: Cognitive Ergonomics II, edited by P. J. Barber and J. V. Laws

991 **Editorial preface**
Cognitive ergonomics: themes and variations.

995 **The Ergonomics Society Lecture 1990**
Simulation as a tool in the measurement of human performance. A. F. Sanders.

Page

1027 Extracting implicit tree structures in spreadsheet calculation. P. Saariluoma and J. Sajaniemi.

1047 Integrated displays and the perception of graphical data. B. P. Goettl, C. D. Wickens and A. F. Kramer.

1065 Effects of monitoring under high and low taskload on detection of flashing and coloured radar targets. R. I. Thackray and R. M. Touchstone.

1083 Reading sequentially-presented Chinese text: effects of display format. K.-T. Chan and H.-C. Chen.

1095 Cognitive performance of super-experts on computer program modification tasks. R. J. Koubek and G. Salvendy.

1113 What experts want from programming languages. M. Petre.

1129 Cognitive representations, control, and understanding of complex systems: a field study focusing on components of users' mental models and expert/novice differences. K. A. Hanisch, A. F. Kramer and C. L. Hulin.

1147 Third World continuing medical education with hypertext: the Liverpool Anaemia Guide System. I. S. Narula and D. Diaper.

1161 Remembering about documents: memory for appearance, format, and location. M. W. Lansdale.

NUMBER 9—SEPTEMBER 1991

1179 Workload and musculoskeletal problems: a comparison between welders and office clerks (with reference also to fishermen). M. Törner, C. Zetterberg, U. Andén, T. Hansson and V. Lindell.

1197 The design of manual handling tasks: revised tables of maximum acceptable weights and forces. S. H. Snook and V. M. Ciriello.

1215 The objective measurement of pain using a motor-performance task. S. Taniguchi and A. Satow.

1221 Determinants of an intention to exercise of an electric power commission's employees. G. Godin and N. J. Gionet.

1231 The effects of alcohol on learning as a function of drinking habits. P. Salamé.

1243 Book reviews.

1253 Ergonomics diary.

CONTENTS OF VOLUME 34

NUMBER 10—OCTOBER 1991

Page

1269 Can humans think? The Ergonomics Society Lecture 1991. H. Thimbleby.

1289 The effect of the size of one and two traffic signs on two measures of perceptual performance. D. L. King, D. C. Sneed and R. N. Schwab.

1301 How does operator control enhance performance of advanced manufacturing technology? P. R. Jackson and T. D. Wall.

1313 Effects of vertical vibration on passenger activities: writing and drinking. C. Corbridge and M. J. Griffin.

1333 News and Information.

1335 Book reviews.

1337 Ergonomics diary.

NUMBER 11—NOVEMBER 1991

1351 Multiple criteria decision-making for the resolution of conflicting ergonomic knowledge in manual materials handling. E. S. Jung and A. Freivalds.

1357 Implementation of double-pulsed holography in evaluation of whole-body vibration. H. Wos, L. B. M. Svensson and S. Norlander.

1365 Effects of whole-body vertical shock-type vibration on human ability for fine manual control. H. Nakamura and M. Haverkamp.

1377 Time-of-day effects of alcohol intake on simulated driving performance in women. J. A. Horne and C. J. Baumber.

1385 Human information processing during physical exercise. F. G. W. C. Paas and J. J. Adam.

1399 Effects of visual guidance on the reduction of impacts during landings. D. G. Liebermann and D. Goodman.

1407 Book reviews.

1411 Our Contemporaries.

1413 Ergonomics diary.

1427 Announcements.

NUMBER 12—DECEMBER 1991

1429 Biomechanical evaluation of heavy tool-handling in two age groups of firemen. S. Lusa, V. Louhevaara, J. Smolander, K. Kinnunen, O. Korhonen and J. Soukainen.

Page

1433 Quantifying exposure in occupational manual tasks with cumulative trauma disorder potential. A. Moore, R. Wells and D. Ranney.

1455 Quantifying variation in physical load using exposure-vs-time data. S. E. Mathiassen and J. Winkel.

1469 Oxygen consumption during fire suppression: error of heart rate estimation. M. Sothmann, K. Saupe, P. Raven, J. Pawelczyk, P. Davis, C. Dotson, F. Landy, and M. Siliunas.

1475 Ergonomics diary.

1491 Index.
